Spett.le ISOTEX srl
Via D'este, 5/7
Poviglio (RE)

Carpi, 07-06-2018

After the earthquakes of 20 and 29 May 2012, we decided to change the classic brick construction system and adopted the ISOTEX system.

To date we have carried out a dozen interventions and we can state that the characteristics of this product are exceptional, as for seismic, thermal, acoustic, etc.

We confirm our full intention to continue building our future constructions with ISOTEX and we highly recommend it to anyone who wants to build a TOP CLASS home!

We want to thank all the staff and ISOTEX owners for their seriousness and professionalism with us.

Cordial greetings.

Lino Costantini

(President)
